# KEY FEATURES ON A RHINOMAN CANOPY

## Unique Design

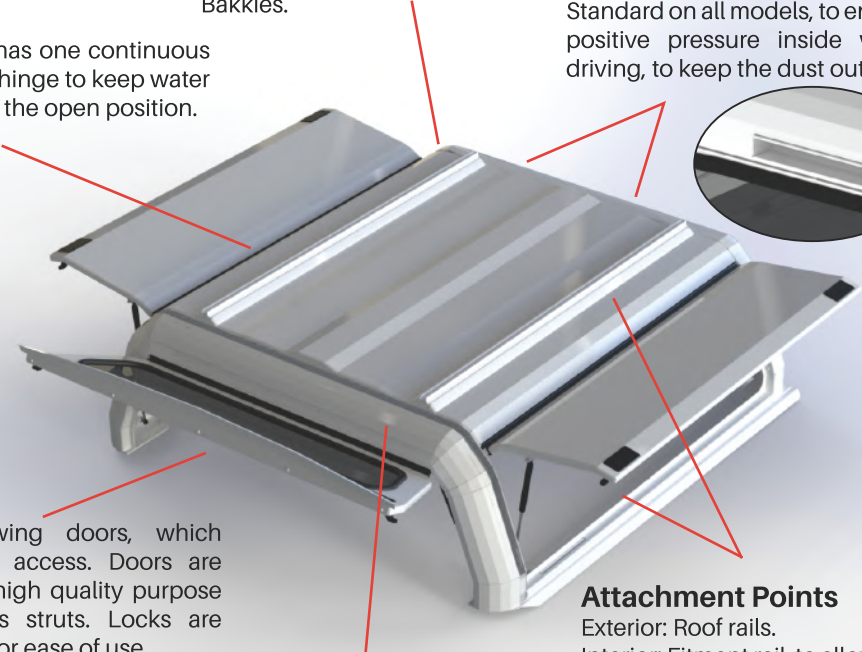

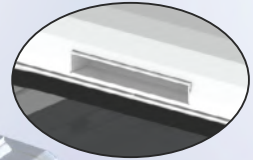

Exceptional strength to weight ratio is achieved through our distinct design. Total weight of 65kg on most Double Cab Bakkies.

## Positive Pressure Vent

Standard on all models, to ensure positive pressure inside while driving, to keep the dust out.

## Hinges

Each door has one continuous waterproof hinge to keep water out, even in the open position.

## Doors

Large gullwing doors, which allows easy access. Doors are opened by high quality purpose charged gas struts. Locks are keyed alike for ease of use.

## Attachment Points

Exterior: Roof rails.  
Interior: Fitment rail, to allow easy fitment of bolt on accessories, such as; kitchen units, roof table, tents, etc.

## Exterior Finish

Finished in a durable powder coat, in a variety of options to best suit your individual taste.
